Some Plain Facts.

Grave errors, injustice, wrongs of greater or less degree, arise from lack of knowledge of the truth, and more frequently from deception.

The most infamous case on record of deception and injustice is the attempt to demonize silver as money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity.

Plain and simple information, facts and truth, concerning this almost successful scheme to corner the wealth of the people, is being printed in the Stark County Democrat, a newspaper which the combined power of money has failed to muzzle or buy.

THE MONEY QUESTION.

The money question comes home to every citizen; in one way or another. The millionaire makes it a study, and the day laborer thinks of and considers it, and for that he toils, as it is the vehicle of recognized value that will get him what he needs to support himself and others.

As a medium of exchange, money, like everything else is affected by supply and demand. A large supply makes cheap money and a scarcity makes dear money.

The government that tampers with the money of a country to disturb values, and especially to the injury of the great body of the people, is unworthy of support, and the party committed to such a policy should receive no support from any good citizen.

This evil policy has been the curse of this country for long years, and the consequences have been frightful, paralyzing business, interfering with trade and driving people into bankruptcy through no fault of theirs. The depreciation in real estate demonstrates the wickedness of the gold standard policy to which the Republican party is fully committed.

That party is thus bound to and fettered by those money potentates who own the world and make slaves of mankind. Americans should look into all this and act the part of free men and release our government from such grasp.

THE MARCH OF PROSPERITY.

The following from the Ohio State Journal is an index to the wide spread prosperity that has come to Ohio under the reign of boodles, bribery, Hanna and honest money:

"Secretary of State Kinney has given out the statistics of pauperism in Ohio for the year ending the first Monday in September, 1898, as prepared by the county auditors. The report shows the inmates of county infirmaries on the first Monday in September, 1897, were as follows: Males, white, 5,538; females, 3,446; males, colored, 215; females, 142.

"Number admitted during the year—Males, white, 4,402; females, 2,200; males, colored, 150; females, 70. Total supported in the infirmaries during the year ending September, 1898—Males, 10,325; females, 5,956. Number of paupers otherwise supported during the year, 25,757. Total number of paupers in the state, 39,038. Of this number 2,846 are white males and 1873 white females; 191 colored males and 126 colored females are wholly illiterate. The number with a higher education is 268 males and 144 females.

"The total cost of keeping paupers in infirmaries is \$356,648.53; keeping them otherwise, \$228,728.52, total cost for keeping paupers for the year, \$585,377.05."

Thus in the year of King Hanna's reign, one out of every 40 in the state of Ohio is fed by the bounty of his majesty's private purse, and it cost \$1,065,377.05 to care for them.

This is the largest number of paupers ever returned in the history of Ohio, and the largest sum of money in any one year raised by taxation for their support. And yet they proclaim prosperity!

General Kitchener's Sudan campaign was no such expensive affair, as were some we could refer to. According to his own account the whole expense of the movement during its two and a half years of continuance was \$2,500,000, say \$12,500,000, and this included not only the transportation and maintenance of the troops, but the building of 700 miles of well-equipped railway and 2,000 miles of telegraph. It would have been an extremely low price for the railway alone, even conceding that it was built, as much of it was, by merely laying the rails and ties on the level sand, with little or no grading. The economic feature of the sirdar's campaign is of interest to both civil and military engineers, especially when we recall the fact that our brief war with Spain will cost not less than \$300,000,000 as matters stand, and by acquiring these islands of the ocean, we may add a hundred millions a year, or so, to our expenses.

The London Times had an article the other day approving the imperial expansion which it claims the President has adopted, the session of the Philippines, and expresses the hope that America "has learned to appreciate the fact that commercial restriction and imperial expansion do not thrive together." The Times commends the annexation of the Philippines as a wise act, from a British point of view, but suggests that its wisdom can only be demonstrated by following the English example. If the United States intends taking up the English policy of colonial dependencies and imperial expansion it should also adopt the English policy of free trade. The reference to tariff restriction, etc., is worthy of consideration by the powers at Washington.

Let all who are opposed to imperial, goldbug rule consider that the result of Tuesday's election is not discouraging. Compared with the result in the presidential year the Democrats have made great gains in the reduction of Republican majorities in all the states. Of course we hope to do better, but let us take comfort in the fact that we have done well. The war spirit was used by the Republicans for all there was in it, and no doubt was potent. The appeal to support the President was in the war line.

The Carroll County Telephone Co., has a force of men putting in the exchange at Maumet this week. The company has 25 subscribers in that town. After that work is done the line will be built between Carrollton and Harrison. The latter town is one of the most important in the county for that service. (Chronicle.)

After all the crowing the Republicans are defeated in Nebraska, the vote on governor being, Hayward, Republican, 88,609; Poynter, fusion, 91,108, a plurality of 2,499. Both sides claim the legislature.

CHIEF OF POLICE SPEAKS

Ringling Words Advising People to Use Dr. Greene's Nervura.

From His Statement No One Can Doubt that
Dr. Greene's Nervura is the Best and
Surest Remedy in the World to Cure.

Chief of Police Henry W. Mason, of New Bedford, Mass., writes to the people: "It gives me pleasure to add my testimony in this brief note to that of many others, of the high esteem in which Dr. Greene's Nervura blood and nerve remedy is held in this community. The fact that it is the prescription of a regular physician adds to the confidence in it which is held by the public. I have given Dr. Greene's Nervura to a personal friend who was ill, and was rejoiced to hear from his own lips an account of the benefit he had received. From report and experience, no doubt exists of the great value of Dr. Greene's Nervura which I recommend."

ness and debility it is the sovereign remedy. It makes the nerves strong, the muscles vigorous, the brain clear, the blood pure and rich—in fact it will make you well and strong.

Do not forget also that you have the privilege of consulting without charge with Dr. Greene, 148 State Street, Chicago, Ill., who is acknowledged to be the most successful physician in curing nervous and chronic diseases, personally or by letter.

No state has been so favored by the administration as Ohio. This may account for the "great victory."

Matt Quay & Co. are always backed by the Standard Oil Company and the railway influence, both potent in Pennsylvania.

"What a piece of work is man!" says a great author. This seems especially true when the election turns out not at all satisfactory.

The stay-at-home Democrats in Stark county gave the Republicans their majorities; and Canton was about the worst place in the county.

The bank clearings for Canton last week were \$232,300, an increase of 36 per cent over the same week last year. Springfield, \$242,716; Youngstown, \$275,848; Akron, \$388,200.

The Republican majority in the next, 56th, Congress, is narrow, for the Democrats have gained thirty to forty seats, besides cutting down Republican majorities in all parts of the country.

"Ninety-eight bids fair to go down as the banner year until ninety-nine is heard from."

This blow is all as to volume without comparing as to value.

The re-election of Governor Pingree, in Michigan; of Lentz to Congress in the Columbus district, in spite of the administration, and of Sibley, of Pennsylvania, and no doubt others, go to show that there is no risk in being a bold, outspoken advocate of free silver as to coinage and use as of old.

Dun's Review of last Saturday reports the volume of trade in October the greatest ever known. This is no doubt true as to volume, but not as to value. These reports give volume, and so compare, but take care usually to make no comparison as to value. To be complete the value should be given the rate per ton, bushel or yard.

Imperialism has its problems, and the President is but entering over what he will recommend Congress as to tariff relations with our new dependencies. The sugar growers of Louisiana and the experimenters with beet sugar in Nebraska, California and other states foresee that their industry will be ruined if Porto Rico as well as Hawaiian sugar shall be admitted duty free or even at a reduced rate. Yet it must be a strained construction of the constitution that will admit of tariff duties upon these products of countries now a part of the United States.

We have free trade in our own territory and between the states. Is this to

be changed? If these acquisitions are a part of our country shall they not be equally well treated? Shall they not taste this freedom and benefit thereby? We shall see.

Election's come, election's gone; Of course the tale is told; And some are in, while some are left, And some are sadly sold!

Pennsylvania is a case of "Ephraim on a nod to his idols." The exposure by John Wanamaker of Quay's frauds, and Rev. Swallow's energetic campaign on the platform "Thou shalt not steal" failed to overthrow the corrupt tyrant that rules the old Keystone state.

Senator Quay will have to see that the administration provide for those Republican statesmen in Pennsylvania who did not get votes enough to send them back to Congress. As ten Democrats were elected in that state on Tuesday, when only three were chosen two years ago, things are somewhat disarranged there. But these new islands may afford positions.

Report is that Germany will bid \$200,000,000 for the Philippines. We say put them up at auction and give poor Spain the benefit. Let the highest bidder take the 1200 islands and the eight millions of inhabitants and all those breech clouted citizens generally will not know or care who gets them.

Our Republican brethren rejoice with exceeding great joy. All right. We do not complain at this eminently good feeling. We take it as the gods ordain it, as an old Greek said.

Our turn will come by and bye. So keep heart, good friends. Never give up; it is wiser and better always to hope than once to despair.

York by declaring for the Bryan platform.

The Repository extolled Chairman Allen Barnes' management and gave him credit for the Republican victory in Stark. And Mr. Barnes, believing in reciprocity, writes to Editor Freese lauding the management of the organ.

"The mutual admiration
Twist Chairman Barnes and Freese.
Their loving salutations, much
Both one another please!"
The columns of the organ here,
Were loud in Barnes' praise,
Who, with sweet reciprocity,
Extolled sweet George's ways!"

The individuals deserving credit for the Republican victory in Stark are the two thousand or more Democrats who did not turn out and vote.

But, with all due respect we quote:
"Tis an old maxim of the schools
That vanity's the folk of fools!"

Judging by the talk in Republican papers they seem to fully believe "the king can do no wrong." This was the old Tory doctrine, but it got a backset in this country in 1776 when the continental congress issued the Declaration of American Independence and followed it up to a successful conclusion, when King George had to acknowledge independence.

The British people, under the lead of the House of Commons and Oliver Cromwell, administered a terrible overthrow to royalty and nobility about the middle of the seventeenth century. And in France, 1789-93, was a "reign of terror" that played havoc with established arrangements. The people had been driven to desperation by oppression and starvation.

Carlyle, in his history of the French revolution says: "The widow is gathering nettles for the children's dinner, and the Seigneur (Lord) lounging on his sicken sofa, exacts every third nettle and calls it rent."

Is it any wonder there should be revolution in the world; especially when there is no ballot-box remedy? Those in authority, as well as voting citizens in a free country, should profit by the lessons of history, but they do not, for if they did, history would not be a repeating as it is. Hence says the great poet of the century:

This is the moral of all human tales,
'Tis but the same rehearsal of the past;
First freedom and then glory, when that fails,
Wealth, vice, corruption, barbarism at last,
And history, with all its volumes vast,
Hath but one page.

THE MONEY QUESTION.

The money question is ever a living issue. It is continuous and always important.

Money, currency, is the vehicle of exchange, an instrument of utility, affecting every citizen in his business, labor or whatever his occupation.

Money, from the earliest period, among civilized people has been gold and silver, and hence have been called the precious metals. Our constitution recognizes this great fact, saying, "no state shall emit bills of credit or make anything but gold and silver a tender in payment of debts."

These precious metals were not liable to sudden fluctuations and hence there was stability in values. Debtors were not injured by sudden depression nor creditors by sudden inflation.

It is the duty of government to protect citizens against injury in this way, and see to the "general welfare." Edmund Burke says: "It is to the protection of the citizen and not to the demands of the creditor of the state that the original faith of society is pledged. The claim of the citizen is prior in time, paramount in title, superior in equity."

The foregoing is in line with the old Greek saying: "The safety of the people is the supreme law." Undoubtedly, the rights of the citizen are paramount, for on these depend the prosperity of the nation and the payment of the public creditors.

There seems to be no safety for many nations of Europe but in radical reform, involving repudiation.

Sold by all grocers.

TROOPS SAIL FOR CUBA.

Spaniards, Whose Places They Are to Take, K-ness to Leave, Until They Get Their Pay.

WASHINGTON, Nov. 14.—Adjutant General Corbin received a dispatch announcing that the Eighth cavalry sailed Sunday morning from Savannah for Puerto Principe, Cuba. The regiment will be the American garrison at Puerto Principe and Nuevitas.

Arrangements have been made by the Spanish authorities to send back to Spain the Spanish troops, numbering 9,500 men, upon the arrival of the American garrison. It was expected that they would sail next Tuesday or Wednesday, but an unexpected obstacle has arisen among the men themselves.

They are on the verge of mutiny, openly declaring they will not return to Spain until they have received their pay, now far in arrears, for service in Cuba. The mutiny extends not alone to the enlisted men, but to their officers, and is directed against the executive officials of the Madrid government on the island.

If they should persist in their refusal to return to Spain, they might become dependents, whom it would be difficult to care for, and, ultimately perhaps, a menace to good government on the island.

The Spanish authorities express no fear of their ability to solve the problem presented, but how they will solve it, if the men, backed by their officers, absolutely refuse to return home without their pay, is not clear.

SOON BE IN THE SOUTH.

Second Corps Likely Will Have Left Camp Meade by Thursday—Hospital Cars on Train.

CAMP MEADE, MIDDLETOWN, Pa., Nov. 14.—By Thursday the entire Second Corps likely will have left for the new camps in the south. Three regiments started the Second West Virginia, Eighth Pennsylvania and First Rhode Island. A battalion from a regiment not yet designated will stay behind to guard the government property.

The hospitals have been cleaned out and on Wednesday their equipment will be sent away. The headquarters of the corps will be Augusta, Ga. The troops will be scattered between that city, Athens, Ga., Summerville, Columbia and Greenville, S. C. A train is provided for each battalion and each man is allowed a seat to himself. Three days' travel rations, five days' field rations and coffee money is issued to each regiment before starting.

A hospital car, in charge of a surgeon and nurses, is attached to each regimental train and a surgeon sent with each section. The Fourteenth Pennsylvania regiment is expected to leave today for Summerville, S. C., and tomorrow the Thirtieth is likely to start for Augusta, Ga. The other two Pennsylvania regiments have already been sent away. The sick soldiers in the city hospitals will join their commands after they are able to leave and have had a 30-days' furlough.

PRACTICAL RELIEF FOR CUBA.

An Unconditional Movement on Foot in Brooklyn.

NEW YORK, Nov. 14.—In Plymouth church, Brooklyn, a meeting was held to consider the present condition of Cuba. Addresses were made by Rev. Dr. Lyman Abbott, William Willard Howard, Rev. Herbert M. Allen and others.

Resolutions were adopted endorsing a plan for Cuban industrial relief as a practical and effective means of helping the Cuban poor to help themselves by providing for them honest employment instead of indiscriminate gifts and temporary relief. The movement is to be unconditional.

TACKLED THE WRONG NEGRO.

He Got the Authorities After a Mob Who Abused Him.

SEYMOUR, Ind., Nov. 14.—A masked and armed mob took out of jail John Baird, a colored Democratic stump speaker, who had been imprisoned on the charge of obtaining money by false pretenses. The mob beat him with sticks, pounded him over the head with revolvers and ordered him to leave the town at once.

Instead of obeying the order, he went to the prosecuting attorney and sheriff for protection. Shortly afterward, he accompanied the sheriff and posse in search for members of the mob.

Brutal Murderer Succeeded.

MANITOWOC, Wis., Nov. 14.—Ernest Messmann, who was arrested for the brutal double murder of Mr. and Mrs. John Bais at Manitowoc, was shot and killed at Manitowoc on Nov. 13, to which he confessed, and placed in jail at Manitowoc for safe keeping, was found dead in his cell; having taken his own life by hanging.

Monument to War Heroes.

CHICAGO, Nov. 14.—The monument to the Santiago dead of the First regiment of Illinois volunteers was dedicated at the regimental armory, with impressive ceremonies. Among the speakers were Dr. H. W. Thomas, Bishop Samuel Fallows and Colonel Henry L. Turner.

Father Baudinelli Dying.

PITTSBURGH, Nov. 14.—Rev. Father Luke Baudinelli, one of the oldest members of the Passionist order in Pittsburgh, is lying at the point of death in the monastery, South Side. Father Baudinelli came to Pittsburgh with the first band of Passionist missionaries in 1834.

STIR OVER THE TEMPLE

Report to the W. C. T. U. Expected Today.

A SECRET VOTE MAY BE TAKEN.

Other Candidates, Besides Mrs. L. M. N. Stevens, Want to Take the Place Made Vacant by the Death of Miss Willard. Other Matters.

ST. PAUL, Nov. 14.—W. C. T. U. delegates, so far as convention work was concerned, spent a quiet day Sunday.

A number of delegates filled local pulpits, both morning and evening. But one session of the convention was held, Miss E. W. Greenwood, world's and national superintendent of evangelistic department, preaching in the afternoon at the People's church.

The temple matter is due to come up late this afternoon, when Mrs. Maclida B. Carso, the founder of the temple,

MRS. MACLIDA B. CARSO.

will make her report on it, and seek to overcome the adverse decision of the executive committee on the subject. A very lively contest is promised, the first move probably being an attempt to secure a secret ballot. Friends of the temple believe they can gain most by such a course, because of the timidity of some of the delegates.

The general opinion has been that Mrs. L. M. N. Stevens, vice president at large and acting president, would be unopposed in her candidacy for the place made vacant by the death of Miss Frances Willard, but several other candidates have been announced. Mrs. Martin H. Dunham of Iowa, one of the temple trustees and now state president of Iowa, is a prominent candidate, and her friends hope for help from the friends of the temple. Another prominent candidate is Mrs. G. B. Forbes, state president of Connecticut.

Mrs. Stevenson's resignation leaves the position of corresponding secretary vacant. Miss Anna A. Jordan, formerly Miss Willard's confidential friend and secretary, seems to be the most prominent in the field for the place.
